MAGELLANIC
nature tours

We go out of the city and the landscape changes complete: ranges, valleys, peat bogs, beaver's dams, forests of high deciduous beech (lengas), low deciduous beech (ñires) and evergreen beech (coihues) will surprise us. Duration: 4 hours.

After cross Olivia's River we border homonym mount to realize our first stop in the viewing-point of Carbajal valley where we will appreciate the immensity of the place, the relief and the glaciers formations.

We continue the trip, visiting some mountain refuge to do some activities like sleds dogs (during the winter) or some trekking in summer.

The Garibaldi Pass (430 mts over the sea level), The guide will explain the behavior of wildlife.

We return the way towards the valleys up to the town.
